SIMStation Boosts Healthcare Education to New Heights with Exam Suite

Flexible and smart approach for assessments and OSCE settings

Vienna & Miami, 6th November 2024 – SIMStation, a leading provider of simulation solutions, has launched the SIMStation Exam Suite, designed to enhance the assessment process in healthcare education. This step reflects the company's commitment to providing educational institutions with innovative tools that ensure students are objectively evaluated and effectively prepared for practical challenges in the healthcare sector.

The comprehensive software solution allows healthcare institutions to seamlessly implement various assessment formats, from Self-Study and Peer-to-Peer Assessment to OSCE setups. With a focus on transparency, efficiency, and smart automation, the highly customizable solution is tailored to meet the needs of users and supports learning providers in delivering high-quality education.

Joachim Hilbrand, CEO at SIMStation, emphasizes the company's customer-centric approach: *"Our solutions are built around our end-users, as they know best what they need to succeed. With the SIMStation Exam Suite, they can enhance the quality, efficiency, and accuracy of their assessments, ensuring that students are well-prepared for their future careers in healthcare."*

The initial projects have already been successfully implemented, demonstrating the practical application and effectiveness of the SIMStation Exam Suite in real educational settings.

"The close and highly focused collaboration with SIMStation has been characterized from the very beginning by high professionalism and a deep understanding of our specific needs. This partnership approach has been crucial in enabling us to develop our Peer-to-Peer Assessments and OSCE examinations in such a short time while fully aligning with our vision," says Gabriella Szelesi, Simulation Coordinator, St. Pölten University of Applied Sciences.

For more information about the SIMStation Exam Suite, please [visit here](#).

If you'd like to experience the benefits of the SIMStation Exam Suite live, visit the SIMStation booth #117 at IMSH 2025 in Orlando. Find all the information [here](#).

About SIMStation

Established in 2011, SIMStation specializes in creating, manufacturing, and delivering innovative AV simulation systems customized for the healthcare industry. With a highly adaptable approach, SIMStation offers a broad range of AV systems and software that streamline educational processes, enhance training effectiveness, and support various assessment formats tailored to the needs of healthcare institutions. Their intuitive simulation solutions, developed by a team of more than 50 professionals, are currently utilized in simulation centers, universities, and medical facilities worldwide. With headquarters in Miami and Vienna, SIMStation is led by the managing directors Joachim Hilbrand and Steven Matthews.
